

It is time again to start scheduling events for Atlanta Celebrates Photography. I would love to have another tableau vivant installation party at my studio this year, and I've been planning my next scene for months. In order to build it, however, I need to raise money. In this case, since I will be using my 8x10 field camera to capture the image, part of the money raised for the project will also be used to cover film and development costs. This will enable me to easily produce the image in larger print sizes.

So if you'd like to support my work and insure yourself the best bargain, here are my pre-sell print prices and editions. These prices will increase upon completion of the scene.

Three edition sizes (sizes are approximate):

12x16, edition of 10, \$225

20x24, edition of 8, \$500

35x40, edition of 6, \$1200

Once the scene is built, the print prices will increase as follows:

12x16 - \$400

20x24 - \$800

35x40 - \$1800

Information about the scene: I have a drawing which details the concept and elements of the scene (something I do in the planning stages), but if I attached it to this email, I could probably hear you laughing from here (I can't draw). But I will tell you that there is a somewhat nautical theme throughout the image and, unless things change, the overall color tones will be blues and golds.

Editioning:

I will assign edition numbers in the order that I receive print orders and will send a receipt detailing that information upon purchase. In the fall, when the scene is finished and the tableau is over, I will deliver or mail all pre-sold prints.

Thank you so much for your time and consideration. I welcome any and all questions, so please don't hesitate to ask.

Thanks again and Happy Summer!
